

SAWOK ELECTIVE APPLICATION

All Spelman College biology majors may choose to take one of the six required biology elective courses outside of the biology department. This course must be relevant to the biology major and be pre-approved by the “Science As a Way Of Knowing”(SAWOK)¹ committee. The hope is that students will use this elective to explore some of the many connections between their chosen major and other disciplines. The steps for SAWOK course approval are:

1. Contact the instructor of the course to obtain the course syllabus
2. Submit the course syllabus together with the completed SAWOK approval form (see below) to the Biology Department office
3. All necessary documents must be submitted by the end of the pre-registration period to allow adequate time for approval
