

# NOVA SOUTHEASTERN UNIVERSITY COLLEGE OF OPTOMETRY

## Early Selection

The NSU Early Selection Program in Optometry (ESPO) provides qualified students with the opportunity for early acceptance into the NUS-COO OD Program thereby reducing student anxiety associated with the regular competitive admission process. Second semester-sophomore students may apply. If accepted, the fourth year in undergraduate studies will be spent at NSU taking basic medical science courses with current optometry students to facilitate a gradual transition.

## PROGRAM INFORMATION

---

### YEARLY DEADLINE:

- Fall
